

Suttner Underbody Wand Assembly

- Ergonomic Lance
- Up to 3000 PSI
- Up to 300°F
- Non-Weeping

Ideal for rinsing the undercarriage of cars and trucks. Connect directly to a pressure washer gun or lance. This lightweight underbody wand assembly rolls easily giving the operator a long reach.

■ Lance has 1/4" MPT inlet connection.

■ Assembly includes Suttner ST601 Gun with a horizontal flow-through design and 3/8" FPT inlet.

■ Stainless Steel pipe with PVC lamination.

■ Ergonomic Lance to reduce bending and operator fatigue.

■ Non-Weeping design allows greater control over water flow.

■ Three Threaded MEG Nozzles maximize spray performance.

Rolling assembly keeps spray vertical

3 Threaded MEG Nozzles
