

makes a difference

# **ROBUST, RELIABLE AND POWERFUL.**

These high-performing wet/dry vacs feature HEPA standard, better filter cleaning technology and they are even more robust.

### We make the system. They make the attachments.

At Kärcher, we are concerned about your health and safety. We think that it is important to get the vacuum system down perfectly first. Our competition only seems to be concerned with the tool attachments. The new generation of Tact wet and dry vacuums are high-performing units that pack a lot of features. Thanks to our continuous improvements to our automatic cleaning system (Tact), large amounts of fine dusts can be vacuumed without any interruption in suction. Vacuum performance remains at the same high level you have come to expect from Kärcher wet/dry vacs. There is no need of manual filter cleaning. It is fully compliant with the new OSHA silica dust regulations and models NT 30/1, NT 40/1 and NT 50/1 carry a lifetime warranty on the tank and vacuum motor. The perfect solution for demanding customers in the rental, construction, industrial and automotive industries. We make the best wet and dry vacuum cleaners on the market!

#### 1 Filtration system

- Improved Tact automatic filter cleaning system for improved cleaning performance and reduced noise level
- Fully compliant with the new OSHA silica dust regulations
- HEPA filter is standard with NT 30/1, NT 40/1 & NT 50/1

#### 2 Robust design

- Even stronger and sturdier components and overall design
- Large metal caster wheels for easier usage at construction sites

#### 3 Improved accessories on NT 30/1, NT 40/1 & NT 50/1

- Accessory system improves performance and usability
- Bayonet and clip connections guarantee easy and secure connection of all accessory parts onto machine
- The new bend with rubber grip area has an ergonomic design for comfortable working conditions.

#### 4 Easier to use NT 30/1, NT 40/1 & NT 50/1

- Easy handling: EASY! Operation Switch, integrated accessory storage
- Large net volume and easy handling thanks to convenient location of vacuum hose connector
- Flat vacuum head with power tool box fixation options
- Wider inner diameter of vacuum hoses 1-3/8 inches (DN 35) standard

**WARNING:** This product can expose you to chemicals including lead and Diisononyl phthalate, which are known to the State of California to cause cancer.
